

INSTALLATION INSTRUCTIONS:

STEP 1- Slide collar over pipe until tight.

STEP 2- Use 3 sheet metal screws to secure.

STEP 3- Slide next pipe into collar until tight.

STEP 4- Use 3 sheet metal screws to secure both.

TIPS:

Industrial tape, foil, or sealer can be used. Duct hangers must be used every 5'.

WARNING!!

Improper installation may result in damage to product or inefficiencies in the system. Use proper PPE and equipment during cutting, bending, and installation processes. If local codes differ from these instructions follow local building codes.
