

DESCRIPTION

The Tradesman cushion tee is used to provide an outlet from a heat run to a diffuser.

CONSTRUCTION

Made of 24GA to 26GA galvanized.

FEATURE

Made to fit Tradesman snaplock, spiral pipe, or flexible pipe. Built-in plugged end to optimize static pressure and eliminate the need to seal a separate plug.

GUARANTEE

Made in Canada. All Tradesman Manufacturing products are guaranteed against defective material.

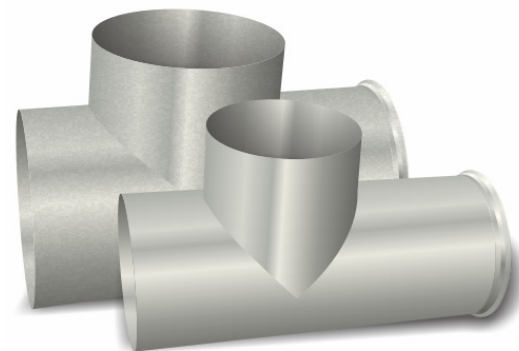

OPTIONAL CONSTRUCTION

Custom sizes available upon request to suit any and all applications.

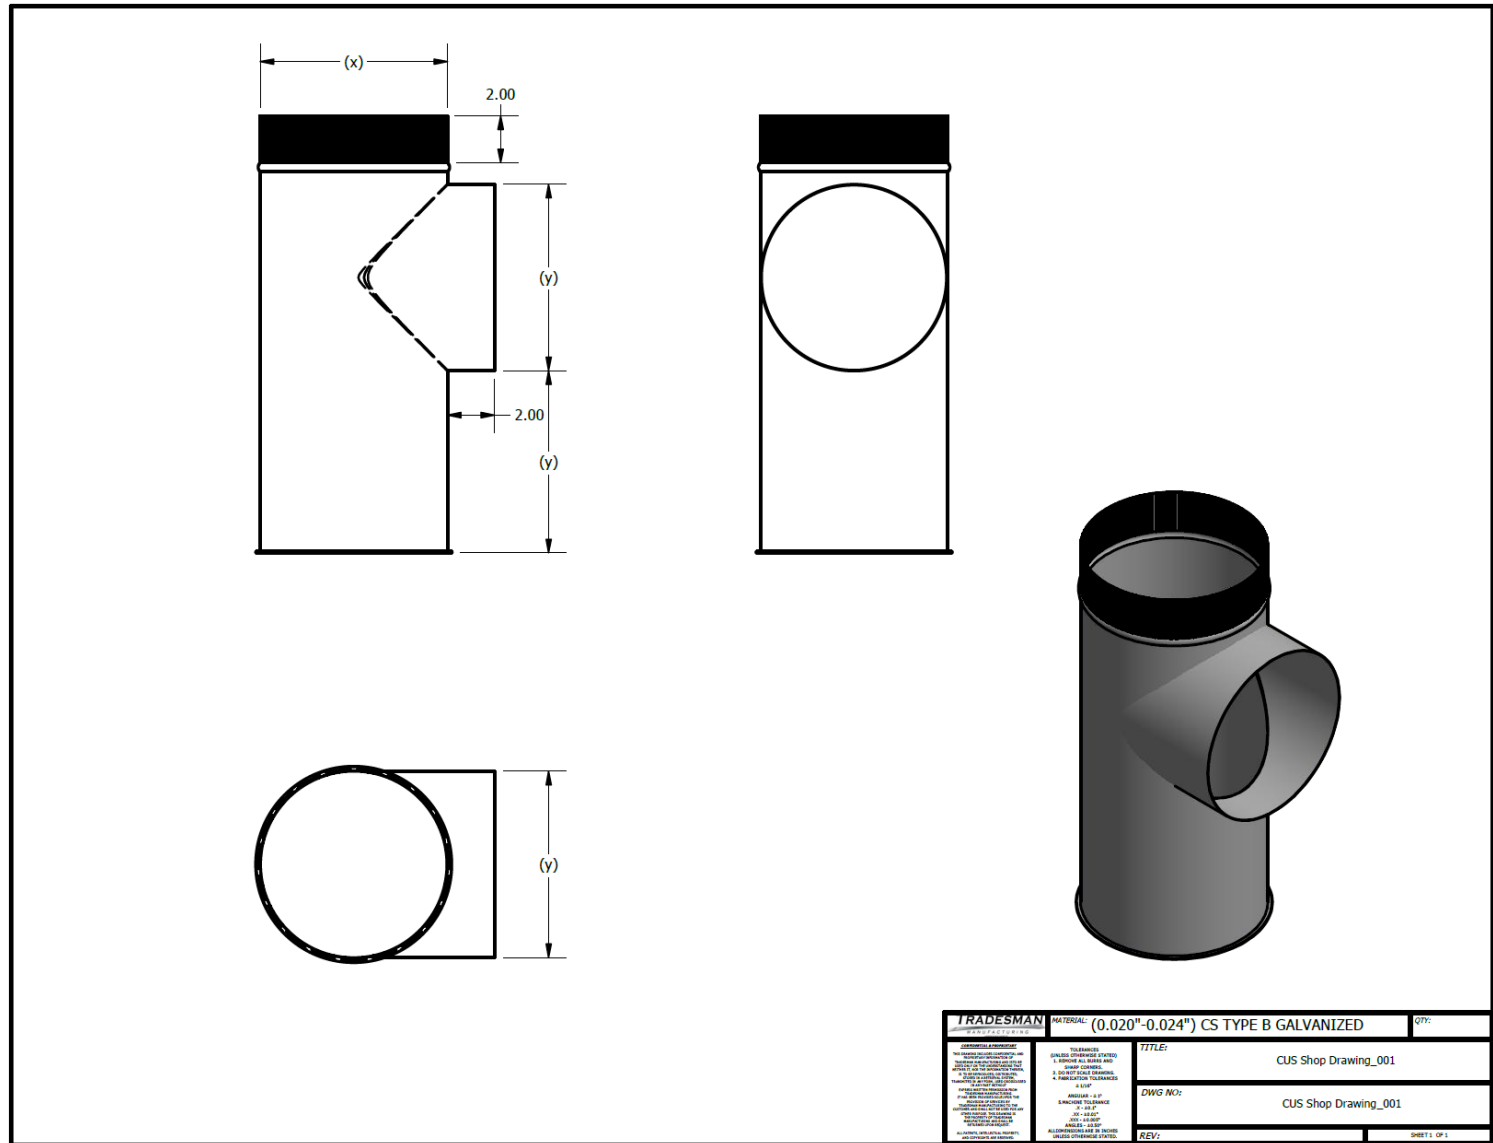

Optional stainless, aluminum, or satin coat.

Contact Tradesman Manufacturing for availability, pricing, and lead time.
