

## INSTALLATION INSTRUCTIONS:

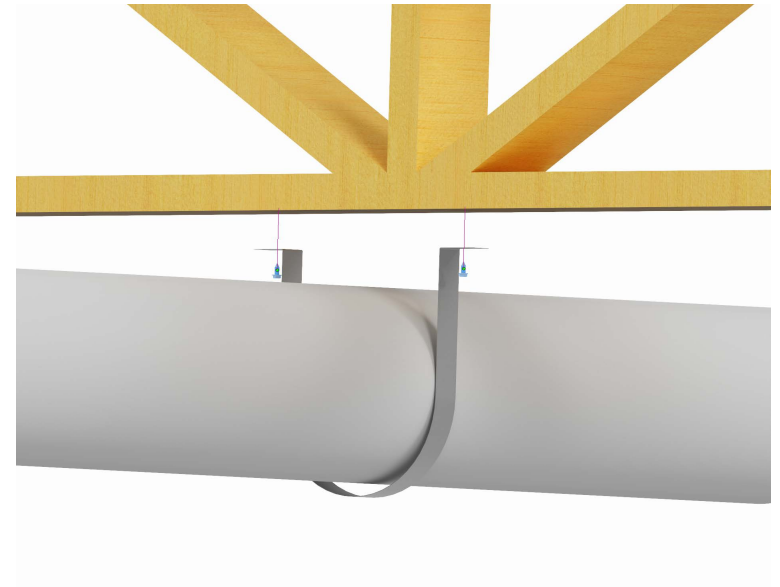

- 1- Used a 1" wood screw or 1" nail on one side of the hanger strap.
- 2- Wrap hanger strap under pipe and measure hanging distance as required.
- 3- Use another 1" wood screw or 1" nail to secure the other side of strap. Cut excess strap if necessary.

### **NOTE:**

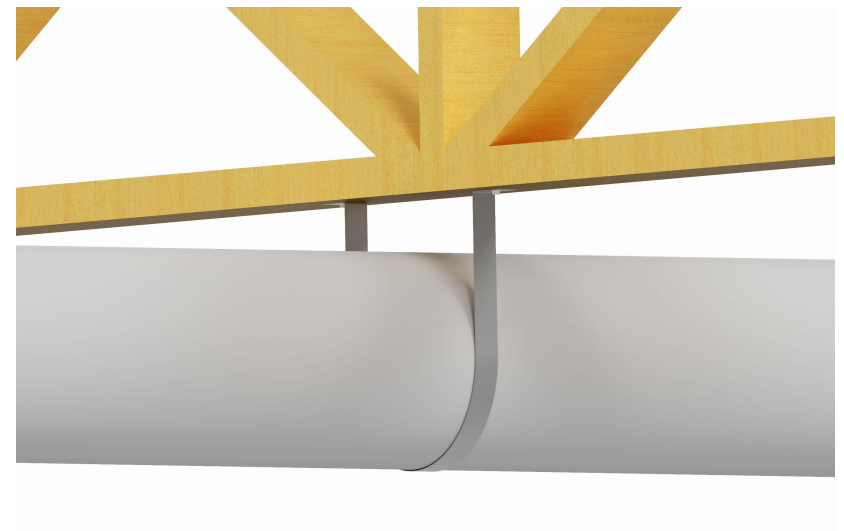

Used for residential applications.

### ***WARNING!!***

*Improper installation may result in damage to product or inefficiencies in the system. Use proper PPE and equipment during cutting, bending, and installation processes. If local codes differ from these instructions follow local building codes.*
